Oversight, Judiciary, and Ways & Means committees release report how Biden and family got rich from socialist agenda

Oversight, Judiciary, and Ways and Means Committees Release Report on Impeachment Inquiry Finding Joe Biden Has Committed Impeachable Conduct

WASHINGTON— On August 19, 2024, the House Committee on Oversight and Accountability, Committee on the Judiciary, and Committee on Ways and Means released a report on the impeach-

ment inquiry of President Joe Biden, finding he committed impeachable offenses. The report details evidence to establish President Biden abused his office and violated his oaths of office as Vice President by engaging in a conspiracy to peddle influence to enrich his family. As President, Joe Biden and the Biden-Harris Administration obstructed the House of Representatives’ im-

peachment inquiry and the criminal investigation of President Biden’s son.

“President Biden’s legacy is marked by abuse of public office, corruption, and obstruction. The evidence produced by our impeachment inquiry is the strongest case for impeachment of a sitting president the House of Representatives has ever in-

vestigated. Americans now know Joe Biden was ‘the brand’ the Bidens sold around the world to enrich the Biden family, and Joe Biden knew of, benefitted from, and participated in his family’s influence peddling schemes. The entire Biden influence peddling model relied on Joe Biden’s presence—at meetings, on the phone, or at dinners—to demonstrate his family members’ influence over

him, and he repeatedly provided it. Throughout our impeachment inquiry of President Biden, the Biden-Harris Administration has sought to obstruct us every step of the way. Despite this obstruction, we have exposed the truth to the American people, and they now know the extent of President Biden’s corruption,” said House Committee on Oversight and Accountability Chairman James

Comer (R-Ky.).

“Our impeachment inquiry shows conclusively that Joe Biden abused his public office for the private financial benefit of the Biden family and Biden business associates. The facts speak for themselves, and Democrats can no longer stretch the

Trump exposes the truth about Social Security for immigrants and how it affects elderly and low-income

By Eric Ruark

During the first presidential debate, Donald Trump claimed the Biden-Harris administration is "trying to put [illegal immigrants] on Social Security."

"Fact checkers" immediately swarmed to debunk the former president. The problem here is that he's largely correct.

When most people think of Social Security, they envision the main retirement benefit for seniors. But the Social Security Administration actually operates several programs for elderly, disabled, and the low-income. While foreigners who cross the border illegally generally don't qualify for retirement benefits, they can receive substantial cash payments from other Social Security programs.

In particular, foreign nationals can qualify for Supplemental Security Income (SSI) -- the Social Security program designed to as-

sist people with little or no income.

Legal immigrants such as green card holders and refugees can qualify for SSI.

But crucially, other foreigners can also qualify -- including those who came here without visas but who received a temporary reprieve from deportation. Eligible foreigners include parolees, Cubans, Haitians, Afghans, Ukrainians, and migrants who've been granted conditional entry or asylum.

Admittedly, not everyone from those groups qualifies. Those foreigners generally also must have resided in the United States for a certain amount of time, or have married a member of the U.S. military, or claim to be victims of human trafficking.

But even with those additional delays and qualifications, nearly 325,000 noncitizens received SSI benefits in 2023, according

"So far, the administration has paroled at least 462,100 Cubans, Haitians, Nicaraguans, and Venezuelans into the United States, as well as 187,000 Ukrainians and tens of thousands of Afghan nationals. Many of them could ultimately receive SSI benefits -- especially if a future Harris administration relaxes the criteria needed to qualify."

to preliminary estimates from the Social Security Administration.

That number could rise even higher, once the parolees and other foreigners who've entered under the Biden-Harris administration have lived here for a certain period of time.

So far, the administration has paroled at least 462,100 Cubans, Haitians, Nicaraguans, and Venezuelans into the United States, as

well as 187,000 Ukrainians and tens of thousands of Afghan nationals. Many of them could ultimately receive SSI benefits -- especially if a future Harris administration relaxes the criteria needed to qualify.

And of course, Social Security is hardly the only government program that foreigners -- including illegal immigrants -- are tapping into.

Data from the Survey of Income and Program Participation indicate that 59% of noncitizen households -- a classification that includes both legal and illegal immigrants -- utilize at least one major welfare program. By comparison, only 39% of U.S.-born households rely on welfare programs. Noncitizen households are receiving everything from Medicaid and Supplemental Nutrition Assistance Program (SNAP) benefits to welfare for their U.S.-born children, school breakfasts and lunches, and earned income tax credits.

Democrats haven't shown signs of backing off, either. On January 1, California became the first state to offer all low-income illegal immigrants health coverage through Medi-Cal, the state-run health insurer.

Trump's warning about Social Security wasn't hyperbole. Congress needs to comprehensively review America's immigration policies and benefit programs to ensure they serve the interests of U.S. citizens.

Soros spends \$117 million to 'elect, control leftist county prosecutors throughout U.S.'

From Judicial Watch

In a scheme to promote a radical leftwing overhaul of the U.S. justice system, billionaire George Soros has spent about \$117 million in the last few years to elect then control dozens of liberal county prosecutors throughout the nation, a new report reveals. Once elected the prosecutors, typically known as district attorneys who represent the government in criminal cases, meet regularly with representatives from Soros-funded nonprofits that coordinate and manage the chief officials responsible for upholding and enforcing the law in their respective districts. The Soros machine orders prosecutors to practice leftist policies that are soft on crime, target police and political opponents. The district attorneys are also directed not to enforce certain laws such as those protecting children from chemical castration and genital mutilation, procedures justified by the left as "life-saving gender-affirming" for transgender individuals. The extraordinary details of the robust Soros effort to overhaul the nation's justice system by embedding leftist prosecutors throughout the country were uncovered during a year-long investigation by the Media Research

Center (MRC). Dedicated to documenting and combating the falsehoods and censorship of the news media, the Washington D.C.-based group examined thousands of pages of documents that show a "shocking level" of control by the Soros-funded nonprofits over many county prosecutors. "The Soros machine sets their policies and priorities, staffs their offices with hand-picked leftists, dictates media narratives, lobbies government officials and perverts the American justice system," the MRC probe found. The investigation determined that the Soros enterprise dedicated at least \$40 million to help elect 126 prosecutors and an additional \$77,663,316 to the leftist nonprofits that issue their marching orders once they are in office. MRC used public records requests to obtain 7,785 pages of internal communications from dozens of Soros-backed prosecutors and examined official files as

well as electronic mail, text messages, chats, and other communications. The documents expose how the Hungarian billionaire's groups directed the liberal prosecutors to manipulate laws involving drugs, abortion, illegal immigration, election integrity, capital punishment and even childhood sex changes. One of the key groups directing the local prosecutors is Fair and Justice Prosecution (FJP), a nonprofit committed to promoting a justice system grounded in fairness, equity and compassion. "Great strides have been made in promoting justice reforms that recognize that prior 'tough on crime' and incarceration-driven practices have not always resulted in safer or healthier communities," according to FJP. The group is a sponsored project of the Tides Center, another Soros-funded conglomerate dedicated to advancing social justice. "FJP held at least 51 private meetings and

published 33 formal statements and pledges that contained signatures from prosecutors within its network between 2021 and 2022 alone," the MRC report states.

Examples include 508 communications--emails, virtual meetings, in-person conversations--between San Francisco District Attorney Chesa Boudin's office and FJP during an 18-month period, averaging at least one communication a day. Five county prosecutors in Texas worked so closely that they created a shared group chat to strategize on refusing to enforce statutes that ran afoul of their leftist political views. Besides embedding like-minded county prosecutors nationwide, the records obtained by MRC show that Soros also spent at least \$35 million to support anti-police groups and causes in one year alone after George Floyd's death. His beloved FJP defended the violence and racial unrest triggered by the Black Lives Matter (BLM) and Antifa movements, accusing the American criminal justice system of being systemically racist. Soros's Open Society Foundations (OSF) also dedicated \$220 million for racial justice and black empowerment in the aftermath of Floyd's death.

Project 2025 responds to VP Kamala Harris' Remarks

WASHINGTON— Dr. Kevin Roberts, president of The Heritage Foundation and Heritage Action for America, released the following statement in response to Vice President Kamala Harris' recent remarks inciting violence against conservatives:

"Vice President Kamala Harris' recent comments about Project 2025 make one thing clear: she has no interest in doing what's best for the country by disregarding the safety of her fellow Americans. Her dangerous and reckless rhetoric has fueled violence—leading to two assassination attempts against President Trump and continued threats of violence from the radical Left. Instead of condemning this political violence, she's doubling down, attacking Project 2025. "At this point, it's impossible to excuse her actions. We have to call it like it is—not only have her words contributed to two assassination attempts on the former president but she has instilled fear in the American people of future violence.

"After months of lies about Project 2025 from Vice President Harris and her allies in the legacy media, it's clear they're desperate to distract from her administration's catastrophic policy failures—deadly open borders, skyrocketing inflation, and a complete erosion of the American Dream. "If their strategy is to stoke fear rather than address the genuine concerns of Americans and protect each citizen's safety, let them. We will not give up, and we will persevere."

The real question is 'Who is Kamala Harris?' a view from Judicial Watch

By Micah Morrison Judicial Watch

The world will quickly be getting to know presumptive Democratic Party presidential nominee Kamala Harris. Her long relationship—personal and political—with the scandal-scarred California power broker Willie Brown is instructive. Brown was instrumental in Harris's rise in California politics. In return, she may have protected him and his allies from damaging investigations. Brown rose through the ranks of the California State Assembly and became Speaker in 1980. He served in that post for fourteen years, ruling with an iron fist in a velvet glove, rewarding allies with lucrative patronage posts and punishing opponents. He called himself the "Ayatollah of the Assembly." In 1996, he was elected mayor of San Francisco, serving two terms. Along the way, he attracted the attention of the FBI, which repeatedly investigated him but failed to bring charges. The FBI may have failed, but Brown had plenty of critics. "The legacy of Willie Brown has been one of corruption and incompetence in government, and the [FBI] probes were a reflection of that," the head of San Francisco

Questions persist about what Harris may have done for Brown and his allies. The investigative journalist Peter Schweizer noted in a recent interview with Breitbart that in her first DA race, Harris ran against the incumbent prosecutor, who was investigating corruption allegations against Brown. "And when she won," Schweizer said, "she dropped a whole series of cases" connected to Brown.

Common Cause told the San Francisco Chronicle in 2004. By 2004, Brown was on his term-limited way out of office, but one of his key allies, Kamala Harris, was on her way up. Harris was elected San Francisco District Attorney in 2003. Brown had put his formidable political machine behind Harris, swinging a come-from-behind election her way. It was not the first time Willie Brown had given Kamala Harris a helping hand. The two dated in 1994 and 1995. In 1994, Brown appointed the then-obscure county prosecutor to two influential state commissions—the Un-

employment Insurance Appeals Board and the California Medical Assistance Commission. Harris's political rise was launched—elected DA in 2003 and 2007, California Attorney General in 2010 and 2014, United States Senator in 2016, and Vice President in 2020. Questions persist about what Harris may have done for Brown and his allies. The investigative journalist Peter Schweizer noted in a recent interview with Breitbart that in her first DA race, Harris ran against the incumbent prosecutor, who was investigating corruption allegations against Brown. "And when she won," Schweizer said, "she dropped a whole series of cases" connected to Brown. The biggest case, Schweizer said, involves an 800-page document from the diocese of the Catholic Church in San Francisco detailing accusations of sexual abuse linked to "individuals and entities" with connections to the Democratic Party. But when "Kamala Harris came in, not only did she not prosecute anybody involved in the scandals, she actually refused to release the 800-page document. And it has been reported in San Francisco, that document disappeared and never was to be found." Those are serious charges that

raise serious questions. What cases were dropped when Kamala Harris became San Francisco DA? Does she appear in records of FBI investigations of Willie Brown? What became of the San Francisco diocese investigation? Where is the 800-page report? Judicial Watch is investigating these issues and other matters linked to Democratic Party power brokers in California. As for Willie Brown, now 90, he remains a strong Harris supporter. In a hastily called side-walk press conference after President Biden announced he would not run for re-election, Brown suggested that the president should resign immediately, stepping aside for Harris. A Biden resignation would "silence all of this nonsense about how to select some new nominee," Brown said. "Her chances go up if he would at this moment say not only am I no longer the candidate, I'm no longer the president—she is."

Farm bill is gift to China and national security threat to USA; EATS Act is a China Trojan Horse

By Lt. Gen. Mike Flynn (U.S. Army, ret.)

Many of you saw in a recent Dr. Phil interview with former US President Trump the alarming issue with Chinese Communists buying strategic swaths of land around US military bases. This is not the only land-based threat the Chinese Communists pose from within America's borders. In the landscape of modern warfare,

China has already set its sights on our food supply, and alarmingly, many Americans, including elected officials, fail to recognize the Trojan Horse that's in our backyard.

China and our other adversaries are not just aiming at our military infrastructure but at the everyday essentials we take for granted—like our food. Our food supply stands as a glaring vulnerability—a weak point that, if compromised, could thrust our society into utter chaos. China has already set its sights on our food supply, and alarmingly, many Americans, including elected officials, fail to recognize the Trojan Horse that's in our

backyard. Now, it's gone from the shadows to inside the House of Representatives' Farm Bill. The Farm Bill—recently passed out of the House Agriculture Committee—contains language known as the "EATS Act," an altered version of H.R. 4417, led by Rep. Ashley Hinson, R-IA. This insidious clause gifts Chinese-owned Smithfield Foods more control over our agriculture at the expense of states' rights and America's farmers. Surprisingly, members of my own party are pushing it. Here's what the EATS Act would do: It eradicates state and local control over agriculture, allowing foreign conglomerates to operate without restriction in our communities. If the EATS Act eliminated state and local authority over agriculture, it would allow companies like Smithfield Foods to synchronize their American production practices with how they do it in China. In China, so-called pig skyscrapers are commonplace. These facilities resemble industrial sized wet markets where hundreds of thousands of pigs are crammed together on each floor. Such places are rife with diseases from daily pig waste and could be where our ongoing avian flu crisis jumps to pigs and then humans. In an April 2020 report based on a three-year study, the Animal Welfare Institute identified Smithfield Foods as one of the worst slaughter plants in the US, which explains their preference for reduced oversight that

Here's what the EATS Act would do: It eradicates state and local control over agriculture, allowing foreign conglomerates to operate without restriction in our communities. If the EATS Act eliminated state and local authority over agriculture, it would allow companies like Smithfield Foods to synchronize their American production practices with how they do it in China.

Consolidation is also a major threat to our food supply. The hog farming industry in Iowa has seen significant consolidation over the past few decades, leading to a decrease in the number of small, independent farms. Most of Iowa's hog farms disappeared between 1982 and 2017 due to the expansion of large factory farms, known as Concentrated Animal Feeding Operations (CAFOs). This trend has continued, with one-third of the remaining small hog farms in Iowa disappearing from 2007 to 2017. Four companies control 60% of the pork industry, with China's Smithfield Foods being the largest. Hog farms in Iowa are under its control, either directly or through contracts. If Smithfield Foods could operate without restriction, it would consume the remaining traditional

and multi-generational American pork producers. The more we let our supply chains become consolidated the more they are vulnerable to Chinese direct supply chain disruptions and cyberattacks. A 2021 ransomware attack on JBS, a Brazilian company, who controls a fifth of America's beef industry, forced them to temporarily close production facilities in Australia, Canada, and the United States. Another cyberattack in 2021 threatened to impact 40% of all grain producers in the country who used the same software. We all know that China actively engages in cyber warfare. Why then would we allow China to put our food supply at risk and give them more direct ways to attack the sustainability of our nation? If China's Smithfield Foods gets its way and the Farm Bill passes with the EATS Act intact within it, we are facing a ticking time bomb that will irreversibly change rural America and threaten our food security. That's why I am disheartened that so many Republicans have not vocally opposed this Farm Bill provision and why I am equally dismayed by those who seem blind to the Chinese threat to our food supply. I am troubled by Rep. Ashley Hinson from Iowa's 1st Congressional District for her stance on food control, potentially providing China with a path to monopolize America's food industry. Iowa's 1st Congressional District,

Agriculture Chairman Glenn Thompson's Statement on declining farm income

WASHINGTON, DC September 6, 2024— Following the release of the USDA's Economic Research Service (ERS) farm income and balance sheet estimates, House Committee on Agriculture Chairman Glenn "GT" Thompson (PA-15) issued the following statement:

"USDA's September update to the farm financial outlook continues to present a bleak picture. Declining commodity prices, record farm production costs driven by the reckless spending of the Biden-Harris Administration, the largest agricultural trade deficit on record, and an outdated farm safety net threaten to wipe out family farms across the country.

"These numbers are more than data points on spreadsheets, they tell a story of struggling American farmers desperate for relief, certainty, and stability. The bipartisan Farm, Food, and National Security Act of 2024 is the legislative remedy our rural communities so desperately need. "It's time to put partisan bickering and red lines aside and pass a farm bill.

Moms for America floods the swamp with deluge of opposition to the Hinson-Marshall EATS Act

WASHINGTON, D.C. September 10, 2024— Moms for America, a conservative advocacy group that focuses on pro-family issues, flooded Capitol Hill in meetings discussing their opposition to the dangerous EATS Act, H.R. 4417/S. 2019, that would hand American pork and other production over to Chinese multi-national conglomerates like Smithfield, and the global meat cartel.

The EATS Act, led by Sen. Roger Marshall, R-KS, and Rep. Ashley Hinson, R-IA, is backed by the National Pork Producers Council and their largest member, Smithfield, who owns one in every six

The EATS Act, led by Sen. Roger Marshall, R-KS, and Rep. Ashley Hinson, R-IA, is backed by the National Pork Producers Council and their largest member, Smithfield, who owns one in every six sows in America, and whose purchase was financed by the Chinese Communist Party (CCP) in 2013. Moms For America is opposed to the EATS Act because it would upend state right's and cede greater control of America's agriculture over to China.

upend state right's and cede greater control of America's agriculture over to China.

President Biden's Secretary of Agriculture, Tom Vilsack, D-IA, along with U.S. House Agriculture Committee Chairman Glenn "GT" Thompson, R-PA, supports including EATS Act language in the upcoming Farm Bill, and Thompson included a

version of the bill in his Farm Bill that passed the Committee in May. Its inclusion is opposed by more than 2,000 diverse opponents that include Moms For America, Farm Action, Competitive Markets Action, the Organization of Competitive Markets, the American Grassfed Association, and three of the nation's top American-owned pork producers

Heritage Foods, Niman Ranch, and Clemens Food Group/Hatfield Meats.

"Smithfield's EATS Act is the greatest threat to food safety and security that Moms across America have seen in half a century," said Kimberly Fletcher, president and founder of Moms for America. "Ensuring we prevent the Chinese Communist Party from further consolidating food production in the U.S. is a critical component of our legislative agenda, and this globalist-backed federal power grab by the swamp must be defeated at all costs."

"Congress must do everything in its power to help strike the terrible EATS Act language included in the House Farm Bill that would decimate producers across the U.S. and nullify countless state and local laws designed to protect small and mid-sized farmers," said Marty Irby, president and CEO at Competitive Markets Action and Capitol Hill. "This radical assault on American family farmers by the global meat cartel and Members of Congress who support them should have every farmer, mother, and American voter up in arms."

In March, 10 U.S. House Republicans, led by House Freedom Caucus (HFC) champion Rep. Anna Paulina Luna, R-FL, sent a letter that included HFC chairman Bob Good, R-VA, to Thompson and Ranking Member David Scott against the nullification of Prop 12 that followed a similar October 2023 letter to Thompson and Scott signed 16 House Republicans led by front-liner Rep. Andrew Garbarino, R-NY.

To date, 230 bipartisan Members of Congress have vocalized their opposition to the nullification of state laws by Thompson and Rep. Ashley Hinson, R-IA, and Sen. Roger Marshall, R-KS, who continue to champion the assault. 171 bipartisan Members of the House sent a letter to Thompson and Scott in August of 2023 and 31 U.S. Senators sent a similar letter to Senate Agriculture Chairman Debbie Stabenow, D-MI, and John Boozman, R-AR, last August. Unfortunately, Boozman, included the nullification of state agriculture laws in his farm bill outline released ear-

lier this year.

Other kitchen table issues Moms for America will be discussing include foster care, fiscal debt, commodity checkoff program reform, and their opposition to the digital dollar, DEI standards, and men competing in women's sports.

The Organization for Competitive Markets (OCM) is a 501(c)(3) non-profit based in Lincoln, Nebraska. The foundation of the Organization for Competitive Markets is to fight for competitive markets in agriculture for farmers, ranchers and rural communities. True competition reduces the need for economic regulation. Their mission, and their duty, is to define and advocate the proper role of government in the agricultural economy as a regulator and enforcer of rules necessary for markets that are fair, honest, accessible and competitive for all citizens.

Competitive Markets Action (CMA) is a 501(c)(4) non-profit based in Washington, D.C., that was formed with the mission of shaping policy to promote more regenerative and sustainable agriculture, and competitive markets in the U.S., and to defend against attacks on states' rights by the federal government. CMA works to raise awareness of the harm caused by multinational conglomerates to the American family farmer, the consumer and our U.S. economy as a whole in an effort to bring about legislative and regulatory reforms.

a pivotal agricultural hub, plays a crucial role in leading the nation in pork production. Annually producing over 30 million hogs, Iowa is consistently at the forefront of this industry, as reported by the Iowa Pork Producers Association and the National Pork Board. This sector serves as a cornerstone of Iowa's economy, contributing billions

annually. Instead of granting more concessions to the Communist Chinese government over our food supply, we should promote more competition and diversity within our agricultural sector. Encouraging a variety of American food producers and reducing reliance on a few large entities mitigates the risks associated with cyberat-

tacks and supply chain disruptions. Policies that support small and mid-sized farms, local food systems, and sustainable agricultural practices are essential for creating a robust and resilient food supply. Smithfield Food already has a substantial presence in the state, with facilities in various cities and employing around 4,000 people. The new change

not only gives more control to Chinese communists over our nation's food, but it also gives them influence over jobs in Iowa at a time when we should be incentivizing American businesses to hire Americans.

Food security is foundational to our national security. As Alfred Henry Lewis famously observed,

Food security is foundational to our national security. As Alfred Henry Lewis famously observed, "There are only nine meals between mankind and anarchy."

"There are only nine meals between mankind and anarchy." This profound statement highlights the fragile nature of our food supply and the swift descent into disorder that any significant disruption could cause, especially by foreign adversaries. This risk escalates dramatically when we permit China to own and control more of our food supply.

Eliminating restrictions on their operations in our country—specifically the EATS Act language in the Farm Bill, which removes nearly all protections—places us in a perilous position, starting with the pork sector, where China can dictate what food Americans can eat, how much food is available and how much American consumers must pay to feed their families. Giving a monopoly on food to China should be a non-starter in agricultural policy and a red-line issue for legislators that all should pledge never to support. It's up to all of us to remain informed, be vocal and demand accountability from our representatives.

How 'the California Way' could drive up energy bills under a President Harris

By Kerry Jackson and Tim Anaya

At a recent press conference, California Gov. Gavin Newsom proclaimed what he called a "fact" -- "California has lower residential utility bills than states like Texas, states like Florida."

Ask any Californian facing sticker shock paying their summer power bills and they'll tell you a different story. Energy Information Administration figures show the average monthly price of electricity was 34.3 cents per kilowatt hour in May (second to Hawaii), compared to 14.7 cents in Texas and 13.63 cents in Florida.

These "nation leading climate policies" are an example of what Newsom calls "the California Way," and they're being picked up by Californian Kamala Harris in her presidential campaign. As documented in our new Pacific Research Institute book, the California Way encompasses bad policies on issues ranging from crime and homelessness to energy mandates and restrictions on worker freedom. Collectively, these ideas are subjecting the state's 40 million residents to higher taxes, more expensive costs, and less freedom.

Every American might eventually suffer under the California Way. As Newsom's recent political roadshow through red states illustrates, these bad policies are no longer being restricted by the Sierra Nevada mountains. They are inspiring the Biden-Harris administration -- the Los Angeles Times calls California the administration's "de-facto think tank" -- and state and local policymakers nationwide.

On energy, California imposes a complex array of regulations, taxes and subsidies on electricity production. These include taxpayer-funded electric car subsidies and unrealistic 100 percent renewable energy mandates. PRI's research found that Californians pay \$1,450 average annual electricity bills, with some residents paying more than \$2,000 per year. This is 56 percent more than the U.S. average, despite residents consuming 34 percent less electricity.

Worse, a recent controversial proposal would have charged people for electricity, in part, based on how much income they earned rather than how much energy they actually consumed.

Despite Newsom's public relations campaign against oil company "price gouging," Californians pay an additional \$1.41 per gallon thanks to government taxes, fees, and regulatory costs on oil production.

Don't forget the forthcoming prohibition on the sale of new gas-powered cars in the state starting in 2045. PRI's research shows the state will be conservatively 21.2 percent short of the power needed daily to charge the vehicles and meet the state's other power needs once the man-

pursuit of truth demanded. Their testimony in the face of political interference has stood up under scrutiny at every step. House Republicans' efforts have been thorough and exhaustive, uncovering reams of information that otherwise would not have seen the light of day, and ensuring that a sweetheart plea deal for the president's son never went forward. We will not tolerate a two-tiered system of justice, one for the wealthy and politically connected, and one for everyone else," said House Committee on Ways and Means Jason Smith (R-Mo.).

Below are key findings from the impeachment inquiry report.

From 2014 to the present, as part of a conspiracy to monetize Joe Biden's office of public trust to enrich the Biden family, Biden family members and their associates received over \$27 million from foreign individuals or entities. In order to obscure the source of these funds, the Biden family and their associates set up shell companies to conceal these payments from scrutiny. The Biden family used proceeds from these business activities to provide hundreds of thousands of dollars to Joe Biden—including thousands of dollars that are directly traceable to China. While Jim Biden claimed he gave this money to Joe Biden to repay personal loans, Jim Biden did not provide any evidence to support this claim. The Biden family's receipt of millions of dollars required Joe Biden's knowing participation in this conspiracy, including while he served as Vice President.

Joe Biden used his status as Vice President to garner favorable outcomes for his son's and his business partners' foreign business dealings. Witnesses acknowledged that Hunter Biden involved Vice President Biden in many of his business dealings

with Russian, Romanian, Chinese, Kazakhstani, and Ukrainian individuals and companies. Then-Vice President Biden met or spoke with nearly every one of the Biden family's foreign business associates, including those from Ukraine, China, Russia, and Kazakhstan. As a result, the Biden family has received millions of dollars from these foreign entities.

The Biden family leveraged Joe Biden's positions of public trust to obtain over \$8 million in loans from Democratic benefactors. Millions of dollars in loans have not been repaid and the paperwork supporting many of the loans does not exist and has not

been produced to the Committees. This raises serious questions about whether these funds were provided as gifts disguised as loans.

Under the Biden Administration, the Justice Department and Federal Bureau of Investigation (FBI) afforded special treatment to President Biden's son, Hunter Biden. Several witnesses acknowledged the delicate approach used during the Hunter Biden case, describing the investigation as "sensitive" or "significant." Evidence shows that Department officials slow-walked the investigation, informed defense counsel of future investigative actions, prevented line investigators from taking otherwise ordinary investigative steps, and allowed the statute of limitations to expire on the most serious felony charges. These unusual—and oftentimes in the view of witnesses, unprecedented—tactics conflicted with standard operating procedures and ultimately had the effect of benefiting Hunter Biden.

The Biden Justice Department misled Congress about the independence of law enforcement entities in the criminal investigation of Hunter Biden. Biden Administration political appointees exercised significant oversight and control over the investiga-

ation of the unprecedented indictments and civil cases against Trump and the prosecutions, convictions, and imprisonment of his aides and supporters.

"They decided that the best way to stop him from winning the 2024 presidential election is by trying to put him in jail. This is a political persecution not only against former President Trump but against his aides and supporters," Smith added.

"Newsfront" is a documentary news TV series produced by Newsmax, which focuses on politics, current events, and human interest stories, dealing with sensitive topics and important issues Americans care about.

Limited Government Agriculture Scorecard launched by American family farmers

First-of-its-kind Tool Holds Lawmakers Accountable to Farmers, Ranchers, and Rural Communities Fighting Corporate Capture and Foreign Multi-national Control of U.S. Government Agencies

WASHINGTON, D.C. – Competitive Markets Action, the Institute for Legislative Analysis, and the Organization for Competitive Markets, announced the launch of the first Limited Government Agriculture Scorecard. This initiative is designed to combat cronyism in agriculture and hold lawmakers accountable to the needs of small and independent family farmers who have long been working to fight foreign multinational conglomerates and the Global Meat Cartel's corporate capture of U.S. agriculture.

As the agriculture industry faces increasing consolidation, it is crucial to protect those who remain—family farmers and ranchers struggling against corporate-driven policies. The 2022 Agriculture Census revealed a 7% decline in the total number of farms, with more than a third of farmers now above retirement age. The urgency to stand up for independent farmers has never been greater.

One of the scorecard's key focus areas is opposition to the EATS Act, H.R. 4417/S. 2019, a bill led by U.S. Sen. Roger Marshall (R-KS), and U.S. Rep. Ashley Hinson (R-IA), which threatens to dismantle premium pork markets that have revitalized independent producers, and would nullify more than one-thousand state agriculture laws enacted by voters and state legislators across the U.S. The China-backed legislation favors corporate agribusinesses, including Smithfield Foods, whose 2013 purchase was financed by the Chinese Communist Party, by undercutting years of investment by small farmers and American-owned companies like Hatfield Meats and Clemens Food Group with producers based in U.S. House Agriculture Committee Chairman Glenn Thompson's home district.

The scorecard is weighted by five metrics: support or opposition to the EATS Act, cosponsorship of the Opportunities for Fairness in Farming (OFF) Act, H.R. 1249/S. 557, an FY 24 House Agriculture Appropriations amendment addressing issues with the U.S. Dept. of Agriculture's scandal-ridden Commodity Checkoff Programs, an FY 24 House Appropriations amendment addressing Electronic Identification ear tags in cattle and bison, and actions taken on Thompson's House Farm Bill in Committee.

"For too long, mandatory check-off programs have been a tool wielded by corporate interests to enrich themselves at the expense of small farmers and higher food prices on all Americans," said Ryan McGowan, CEO of the Institute for Legislative Analysis and creator of the scorecard, stressing the importance of transparency and reform. "The OFF Act is a critical step towards combatting corruption and bringing much needed transparency and accountability to these programs. This scorecard will shine a light on those legislators who are truly standing up for American farmers by adhering to limited government principles, and those who are content with grow-

'A Blinded America'

By Manuel Ybarra, Jr.,
Special to
The Mid-South Tribune

The moral decay of America and the World has come to such a point in history that many religious leaders believe that God could any day say enough! Let the judgment begin!

Some two thousand years ago, Jesus, the only begotten Son of God, brought the spirit of his beloved disciple John to Heaven, to tell him what to write on the Book to be called Revelation. As directed, St. John, in that book, detailed what was going to take place in the future as God punishes Mankind for their failure to obey Him.

But, also, before Christ ascended to Heaven, he told his disciples that, he would ask God the Father, to send the Holy Spirit to Earth to guide them, and he did. Under the guidance of the Holy Spirit, they too wrote books and letters telling of Jesus future return to earth to destroy the wicked.

Even in America today, we see that hate against God's people, meaning the Jewish and Christians, is growing out of hand. In Matthew 24 Jesus said there will be "Great tribulation" before he comes back, "and except those days should be shortened, there should no flesh be saved."

It is sad that we let the unbelievers take over America. Now they are so sure they can win the election merely by supporting all those things which in God's Word are evil and ungodly.

Now we do not have the gumption to say, Sorry ladies and gentlemen, but God forbids Same-sex intercourse and marriage! God made that known when He destroyed Sodom and Gomorrah, and three other cities, by brimstone and fire from Heaven.

God also forbids many other things in his word and in his commandments.

Nor do we dare say, Sorry ladies, but once you are pregnant there is another body inside you, a human baby growing, and God says love your children, and God forbites murdering an innocent baby. In other words, you do not have a right to kill him/or her. That baby God formed and gave a spirit while in you he made male or female. God knows what is best for each of us. No human being has a right to change that! So how in the world an America who once trusted in God become so blinded!

Obviously, started trusting in Man instead of God! Forgetting about God and His love, an His just laws. America seems to be taunting God to do his stuff! And He probably soon will! Now what God called Good, Man calls Evil. Those who believe in God and are good, are now being called evil. As prophesied, persecution of Christians has started and will only get worse!

Jesus said he always said what God told him to say, or what he taught him. So his prophesy is what God told him and it is coming true! Even our once Christian nation is falling apart at the Seams! Forgive us LORD!

Blackburn announces growing conservative momentum for the Kids Online Safety Act

WASHINGTON, D.C. September 12, 2024 – U.S. Senator Marsha Blackburn (R-Tenn.) recently announced new conservative endorsements for the bipartisan Kids Online Safety Act she authored with Senator Richard Blumenthal (D-Conn.) to provide young people and parents with the tools, safeguards, and transparency they need to protect against online harms. This legislation is the first major reform to the tech industry since 1998 and passed the Senate with 91 Senators voting in favor of it. Children face an endless list of online threats, including sexual exploitation, drug trafficking, and the promotion of suicide, eating disorders, and illegal products. The Kids Online Safety Act has garnered support from a strong coalition of conservative stakeholders who are calling on the House of Representatives to quickly take up and pass this legislation before the end of the year.

NEW ENDORSEMENTS

Kellyanne Conway: "Increasingly, children are vulnerable to online distortion and exploitation due to social media use. Social media can be a force for good, but also lurking there are traffickers, drug dealers and other bad actors. The Kids Online Safety Act (KOSA) would begin to implement concrete measures that ensure our children are protected online and parents are given more control over what their children are viewing. I commend Sen. Marsha Blackburn's persistent dedication and leadership on KOSA. For the well-being of our children, the health of our nation, and the security of our future, Congress must act now." – Kellyanne Conway, Chair, Center for the American Child, America First Policy Institute (AFPI), Former Senior Counselor to President Donald J. Trump

Mercedes Schlapp: "Big Tech must be held accountable for refusing to protect children from online harms. When children are online, they are vulnerable to traffickers, child predators, and drug dealers who want to manipulate and harm them. It's past time for social media platforms to prioritize the safety of children by adding stronger privacy settings and preventing the promotion of harmful content to

minors. Keeping children safe is paramount, and I commend Senator Blackburn for standing up against Big Tech and for conservative values." – Mercedes Schlapp, Former White House Director of Strategic Communications under the Trump Administration

Morgan Ortagus: "The Kids Online Safety Act is a critical step for protecting those who depend on us most for protection—our children. By requiring social media platforms to enable strong private settings by default, our minors will be better defended against the exploitation attempts visible every day on these platforms. As a mother, I am so grateful to Senator Blackburn for standing up for our children and being a leader in this fight." – Morgan Ortagus, Former U.S. Department of State Spokesperson under the Trump Administration

Mike Huckabee: "I'm delighted to support the heroic efforts that [Senator Blackburn] and Senator Blumenthal are leading in a bipartisan plan to pass the Kids Online Safety Act (KOSA). Protecting America's children is not a political issue, but a public safety concern that transcends the normal horizontal political spectrum of left/right. This is a vertical issue of up and down and KOSA is straight UP for families who are struggling to protect their children from the 'Wild West' of online dangers. Those who legitimately have concerns of censorship should realize KOSA does not threaten the First Amendment, but it helps protect children from the very real threat of exploitation, trafficking, and abuse." – Mike Huckabee, Former Governor of Arkansas

Jonathan Skrmetti: "I appreciate Senator Blackburn's leadership on this bipartisan effort to protect kids from the worst effects of social media. Algorithmic social media platforms have devastated teen mental health. I'm proud that Senator Blackburn places such a high priority on kids' online safety." – Tennessee

see Attorney General Jonathan Skrmetti

Lynn Fitch: "Social media platforms promise connectivity, but not without consequences. These platforms pose a serious risk to our children and their futures depend on our willingness to protect them in this digital era. It is past time the federal government updated the rules to help parents protect their children from the mental and physical effects of this epidemic. I am proud to support Senator Blackburn's Kids Online Safety Act to ensure our children receive the protection they desperately need and deserve." – Mississippi Attorney General Lynn Fitch

Harmeet Dhillon: "Americans have all seen the threat posed by Big Tech companies. I've represented clients against big tech companies including Google who fired them for expressing conservative views. I've said before that I'm surprised we haven't seen Washington do more to rein in Big Tech's excesses, so I'm glad that lawmakers such as Senator Blackburn are stepping up to do so. The Kids Online Safety Act will put rules into place to prevent these platforms from exploiting vulnerable kids and will give families a remedy against the CEOs who offer false apologies but enable these practices for profit and ideological reasons. To be clear: this is not about so-called 'misinformation,' although we know tech uses Section 230 as a mechanism to freely censor content that falls outside of their version of the truth. KOSA will address the other side of the coin, tech companies' effective immunity against real harms caused by publishing others' content, including sex trafficking of children, drug sales to minors, and kids committing suicide. I commend the Senate for passing this much-needed legislation and look forward to seeing the House pass it soon." – Harmeet K. Dhillon, Founder and Managing Partner of Dhillon Law Group Inc.

Josh Hammer: "I commend Senator Blackburn and Congressman Bilirakis for their work on the Kids Online Safety Act. At a time where family values are consistently under attack, this legislation takes the right steps to help parents fight back against Big Tech's exploitation of our

children. We know that internet platforms are targeting kids for everything from the solicitation of sex to fentanyl trafficking courtesy of China and the Mexican cartels. Don't buy Big Tech's claims to the contrary – it's time Congress stepped in to regulate Big Tech for the sake of American families." – Josh Hammer, Senior Editor-at-Large for Newsweek and Host of The Josh Hammer Show

John Yoo: "The Kids Online Safety Act is a critical step forward in the fight to protect our children online. It empowers families with the tools that they need to remain safe online. It holds platforms accountable by creating a targeted duty of care to prevent and mitigate risks to children. The Act falls squarely within the First Amendment, which recognizes the government's compelling interest in preventing the sexual exploitation of children and protecting their physical and emotional well-being. That compelling interest, and the Act's narrowly tailored means, will outweigh any free speech claims from the Big Tech platforms. This bill is not about censorship or content, but about the dangerous features that tech companies have pushed towards America's children." – Professor John Yoo, Emanuel Heller Professor of Law at the University of California at Berkeley and Former Deputy Assistant Attorney General for the Office of Legal Counsel

Paula White-Cain: "As a Pastor and a parent, I affirm that supporting the Kids Online Safety Act is a pro-life value because it protects the dignity and well-being of our children from the relentless exploitation by Big Tech. Senators Blackburn and Blumenthal's bipartisan Kids Online Safety Act is a crucial step in defending our youth from the toxic content, addictive algorithms, and mental health risks that have become rampant online. By demanding stricter privacy settings and greater parental control, this bill stands against those who seek to profit from the vulnerability of our children. We must champion this cause to safeguard the future of our next generation. That is why the National Faith Advisory Board supports the Kids Online Safety Act and urges people of faith, parents and anyone who wants to protect

children to voice their support too." – Pastor Paula White-Cain, President and Founder of the National Faith Advisory Board and Spiritual Advisor to President Donald J. Trump

CONSERVATIVE LEADERS SUPPORT PROTECTING KIDS ONLINE

Richard Grenell: "The Kids Online Safety Act is pro-family and pro-America. It will help protect children from being exploited online by drug cartels, sex predators, and human traffickers. Big tech has abused conservatives for far too long. I know that big tech will continue spending millions to defeat this legislation, but my good friend [Senator] Marsha Blackburn will not back down." – Richard Grenell, Former Acting Director of National Intelligence under the Trump Administration

Newt Gingrich: "The Senate should pass the Kids Online Safety Act. It is a vital step toward protecting children." – Newt Gingrich, Former U.S. Speaker of the House

Sebastian Gorka: "I can't remember the last time there was 70 plus co-sponsors for a bill in the Senate... God bless Senator Marsha Blackburn. Please follow her right now and express your support for this crucial piece of legislation." – Sebastian Gorka, Former Deputy Assistant to President Donald J. Trump, Host of "America First with Sebastian Gorka"

America First Policy Institute: "Congrats to the U.S. Senate for passing the Kids Online Safety Act, which empowers parents to make better-informed decisions about their children's online presence. It's well past time to stand up for our children from predators, toxic content, exploitation, and more, and this bill would do just that!"

The Heritage Foundation: "Normally I am just an analyst here but today I am a grateful mom. The Senate passed the Kids Online Safety Act by a vote of 91-3. If it is successful in the House, this would be the first concrete piece of legislation aimed at protecting kids online in almost THREE DECADES. Big Tech will finally be held accountable for targeting younger and younger users and parents will fi

The Mid-South Tribune Endorses U.S. Senator Marsha Blackburn —Again! ... from page 11

Following statement:
"In 2022, the Biden-Harris Department of Education announced new rules that would actually force schools to allow biological men to play on female teams. This regulation really does undermine women's sports, so I introduced legislation that would establish a day, October 10th, as 'American Girls in Sports Day.' The Democrats went to the floor and blocked that resolution, but October 10th should still be a day we set aside and celebrate our female athletes. In the last 50 years, since the signing of Title IX, female athletes have really gone from the sidelines to center stage. That is something to celebrate."

The Democratic Party in its most 'progressive-Marxist'

mode is not only eliminating women but men as well. Again, this party has made it clear that there should be no designation as "mother" or "father" or "man" or "woman," but rather women should be labeled as birthing persons and men as non-birthing. The family unit would not exist; so, no need for "father" or "mother." Outside of being insane, this is being done on purpose to transform the Democratic Party into a socialist-Marxist party.

Gloria Johnson is part of this inane movement which has yet to even denounce smash and grab violence, illegal migrant crime against citizens, cashless bail, and defund the police. The Democratic Party is setting up sanctuary cities, towns, and states to accommodate illegal migrants to serve as a springboard to give illegals the right to vote without being citizens. This is a slap in the face to natural-born citizens and to those immigrants who did it the right way to become citizens. We have editorialized for years that every voting rights bill is not about suppressing the Black Vote but in reality is about no longer making

citizenship a requirement to vote. So much, for the One Man, One Vote principle which defined the Civil Rights Movement of the 1960s as it relates to the Black Vote.

Sen. Blackburn co-sponsored the SAVE Act (Safeguard American Voter Eligibility) to prevent non-citizens such as illegal migrants and illegal migrant criminals from voting in American elections.

and illegal migrant criminals from voting in American elections. The Democratic Party under Biden and Harris has allowed millions of illegal migrants into the country without being vetted we believe for the sole purpose to VOTE.

We all know that the Democratic Party continues to use words like "racism" to evoke emotion. Johnson's campaign is no different. However, we doubt if Johnson has even bothered to bring up Sen. Blackburn's resolution to recognize the Scarborough 85 Black students who integrated

the public schools in Oak Ridge, Tennessee on September 6, 1955. That would maim Gloria Johnson's agenda to paint Sen. Blackburn as a "racist" on the inane premise that all Republicans are racists.

Despite Johnson being a retired special education teacher, she has yet to denounce the Democratic Party's push for CRT (Critical Race Theory) pedagogy, which teaches the Black child that he or she will always be oppressed by the White child, and the White child will always oppress by the Black child. This is a doctrine of hate which has preempted the teaching of reading, writing, and arithmetic. After all, CRT advocates that even math is racism. In her steadfast defense of children, Sen. Blackburn has asked "where are the nearly 325,000 unaccompanied children brought over among illegal migrants?" She and others who are concerned have yet to receive an answer from the Biden-Harris Homeland Security Dept. and the DOJ. To think these many children are missing is beyond comprehension; yet, we know it is real because history has confirmed many accounts of geno-

cides, slavery, and sex trafficking condoned by political parties and politicized individuals.

Johnson's silence on these matters speak loudly.

In addition, Blackburn has introduced her KIDS ONLINE SAFETY Act to protect children on the internet. A much-needed piece of legislation.

Johnson has neither the will nor the discipline to see too much of anything through except to smile and profile with the other two members of the Tennessee Three who have gone full-throttle socialist and Marxist in tune with the Democratic Party. The Tennessee Three might as well have been a 21st Century bizarre spin on the folk-singing trio of Peter, Paul, and Mary, except they don't sing. Their talent is to evoke emotionalism, deliver socialism, and call everything from a raisin to a snowflake "racist." Sen. Blackburn's policies are substantive and will serve as a foundation for a 21st Century Tennessee and as a building block to Make America Great Again.

The Republican Party addresses non-citizens voting, an issue with Black, White, Brown, and Yellow citizens of the United States of America

RNC forces Kamala Harris' Vice President choice Gov. Tim Walz's Minnesota to stop non-citizen voting

WASHINGTON, September 13, 2024 - President Trump and the RNC's Election Integrity team have forced Walz's Administration in Minnesota to inactivate over 1,000 voters on the rolls who could be non-citizens or ineligible to vote. This is a huge victory to protect the vote and secure our election for Americans.

RNC Chairman Michael Whatley stated: "Kamala Harris opened our borders and Tim Walz opened Minnesota's elections to non-citizen voting. Without the efforts of the RNC and MNGOP, Walz would have quietly allowed non-citizens to remain on the voter rolls and cast ballots this election. The contrast

is clear: while Democrats push illegal immigrants to decide the future of our country, Republicans champion secure elections decided by Americans. We have held Walz's Administration accountable, forced Minnesota to follow the law, and will continue to fight to protect the vote across the country."

MNGOP Chairman David Hann stated: "Walz is responsible for this failure in the election system. His extremist agenda is bad for Minnesotans, and he must be held accountable. We discovered and stopped this latest attack from the radical left and will continue to fight for secure elections in Minnesota."

Tim Walz signed the law for automatic voter registration and Driver's License For All, which allowed non-citizens on the voter rolls. His Administration totally failed to remove ineligible voters and clean the voter rolls.

•Following this discovery, we demanded Walz's Administration conduct a thorough review and removal of ineligible voters from the rolls.

Walz's Administration responded that they had identified more than 1,000 potentially ineligible voters, including non-citizens, on the voter rolls and have marked them as inactive pending review and verification.

By Ms. Arelya J. Mitchell, Publisher/Editor-in-Chief The Mid-South Tribune

Mississippi is fast becoming a Sanctuary State—not city. State. Let that sink in. Memphis, Tennessee known as the Capital of the Mid-South is another target of multi-billionaire George Soros and the Democratic Party socialist elites in their rabid quest to transform the United States into a socialist nation which they control.

Mississippi and Memphis. Keep these two areas in mind, because they are the blueprint to Soros' and the Democratic Party's plan to use lawfare in the same manner it was used to legalize segregation (Jim Crow) after the Civil War. It is the same blueprint on how they used lawfare to violate the 13th, 14th, and 15th

Amendments while thrashing the Emancipation Proclamation. But instead of using the word "blueprint", I shall use the term "black-print" because Soros and the Democrats are advancing with the speed of light their socialist agenda by seeking out and capturing every state with a high Black American citizen percentage to pull off the biggest and most historic coup to take down the United States into socialism and ultimately Marxism where you will own nothing and be nothing, based on their premise that you are already expendable. They are being aided and abetted by the Congressional Black Caucus (CBC) of which Mississippi's Congressman Bennie Thompson is a high-profile member who wheels formidable power which he seeks to maintain and multiply in his bid to be

re-elected.

Our unapologetic accusation of a coup d'etat dovetails with the Media Research Center's (MRC) recently published special report entitled "How the Soros Machine Directs & Controls Prosecutors Across America to Implement His Leftist Agenda," a study written by and conducted by Tim Kilcullen, Joseph Vazquez, Tom Olohan, and Dan Schneider.

Soros has already positioned his prosecutors (aka district attorneys) in the following Mississippi counties of Hinds, Lowndes, Oktibbeha, and Clay. In Tennessee, his Soros-Democratic Party prosecutors are in Shelby County (Memphis) and Davidson County (Nashville). Soros also has his share of judges and law firms in place to ensure his victory in destroying America's socio-economic foundation

Soros has already positioned his prosecutors (aka district attorneys) in the following Mississippi counties of Hinds, Lowndes, Oktibbeha, and Clay. In Tennessee, his Soros-Democratic Party prosecutors are in Shelby County (Memphis) and Davidson County (Nashville). Soros also has his share of judges and law firms in place to ensure his victory in destroying America's socio-economic foundation

based on the U.S. Constitution and sovereignty. Soros, one of the richest men in the world (yes, 'world'), is a greedy idealistic economist who advocates for his Open Society which teaches that nations should NOT have borders. In other words, he does not believe in sovereignty. I have stated that even a dog marks his territory; thus, the nature of sovereignty. Soros violates this nature which has been in place since God Almighty marked off Paradise from Satan. Soros, surprisingly as a Jew, has stated that he is an atheist and believes that God was created by man and not the other way around. This is why he also takes aim at the black church as part of his black-print, knowing an ample number of black ministers worship the Golden Donkey (Democratic Party) to keep their 501c in place.

For example, the Rev. Raphael Warnock, who is now a U.S. Senator and pastors Dr. Martin Luther King, Jr.'s historic Ebenezer Baptist Church in Atlanta, is an avowed socialist. He confirmed this when he was running for office.

I was interested in the MRC study as both a political scientist and a journalist because Mississippians and Memphians should understand that today's Democratic Party is not what they think of it after the Civil Rights Movement of the 1960's. It has betrayed Blacks and is using Blacks as the same tool it did to perpetuate the Civil War of the 1860's to hold onto black slavery—to divide and conquer.

In 2024--in the 21st Century--the Democratic Party is anti-America; it is George Soros-soaked and bought. It fits in George Soros' theory on reflexivity. Cong. Bennie Thompson and the Congressional Black Caucus (CBC) and yes, even most state Democratic Black Caucuses are entrenched in this movement to advance socialism and Marxism before the November 5th Election. Too many of them are Soros-bought, backed and corrupted.

We discovered in his own words from a 2014 interview in Germany's BLD publication why Soros has laid out his master black-print. He stated: "I'm going to bring down the United States by funding black hate groups. We'll put them in a men-

tal trap and make them blame white people. The black community is the easiest to manipulate."

This also explains why Soros has funded Black Lives Matter (BLM) which is an avowed Marxist organization. We researched BLM several years ago and managed to get what they

stood for before they scrubbed their website where they stated outright that they were proud trained Marxists. We, in fact, published their goals of eliminating the black family, Black males, and all males calling these aims as their goal to turn America into a socialist-Marxist nation under the guise of anti-racism. Indeed, we were lucky to have documented BLM's philosophy before the Big Scrub. These BLM anti-male founders now live in luxurious mansions, eat ambrosia, and sip wine. They have expensive cars and can fly first class anywhere they want. To us they epitomize prototypes of African socialist dictators who

For The Record from our archives

An Open Letter from Retired Generals and Admirals (2021)

Our Nation is in deep peril. We are in a fight for our survival as a Constitutional Republic like no other time since our founding in 1776. The conflict is between supporters of Socialism and Marxism vs. supporters of Constitutional freedom and liberty.

During the 2020 election an "Open Letter from Senior Military Leaders" was signed by 317 retired Generals and Admirals and, it said the 2020 election could be the most important election since our country was founded. "With the Democrat Party welcoming Socialists and Marxists, our historic way of life is at stake." Unfortunately, that statement's truth was quickly revealed, beginning with the election process itself.

Without fair and honest elections that accurately reflect the "will of the people" our Constitutional Republic is lost. Election integrity demands insuring there is one legal vote cast and counted per citizen. Legal votes are identified by State Legislature's approved controls using government IDs, verified signatures, etc. Today, many are calling such commonsense controls "racist" in an attempt to avoid having fair and honest elections. Using racial terms to suppress proof of eligibility is itself a tyrannical intimidation tactic. Additionally, the "Rule of Law" must be enforced in our election processes to ensure integrity. The FBI and Supreme Court must act swiftly when election irregularities are surfaced and not ignore them as was done in 2020. Finally, H.R.1 & S.1, (if passed), would destroy election fairness and allow Democrats to forever remain in power violating our Constitution and ending our Representative Republic.

Aside from the election, the Current Administration has launched a full-blown assault on our Constitutional rights in a dictatorial manner, bypassing the Congress, with more than 50 Executive Orders quickly signed, many reversing the previous Administration's effective policies and regulations. Moreover, population control actions such as excessive lockdowns, school and business closures, and most alarming, censorship of written

and verbal expression are all direct assaults on our fundamental Rights. We must support and hold accountable politicians who will act to counter Socialism, Marxism and Progressivism, support our Constitutional Republic, and insist on fiscally responsible governing while focusing on all Americans, especially the middle class, not special interest or extremist groups which are used to divide us into warring factions.

Additional National Security Issues and Actions:

- **Open borders** jeopardize national security by increasing human trafficking, drug cartels, terrorists entry, health/CV19 dangers, and humanitarian crises. Illegals are flooding our Country bringing high economic costs, crime, lowering wages, and illegal voting in some states. We must reestablish border controls and continue building the wall while supporting our dedicated border control personnel. Sovereign nations must have controlled borders.
- **China** is the greatest external threat to America. Establishing cooperative relations with the **Chinese Communist Party** emboldens them to continue progress toward world domination, militarily, economically, politically and technologically. We must impose more sanctions and restrictions to impede their world domination goal and protect America's interests.
- **The free flow of information** is critical to the security of our Republic, as illustrated by freedom of speech and the press being in the 1st Amendment of our Constitution. Censoring speech and expression, distorting speech, spreading disinformation by government officials, private entities, and the media is a method to suppress the free flow of information, a tyrannical technique used in closed societies. We must counter this on all fronts beginning with removing Section 230 protection from big tech.
- **Re-engaging in the flawed Iran Nuclear Deal** would result in Iran acquiring nuclear weapons along with the means to deliver them, thereby upsetting Mideast peace initiatives and aiding a terrorist nation whose slo-

gans and goals include "death to America" and "death to Israel" . We must resist the new China/Iran agreement and not support the Iran Nuclear Deal. In addition, continue with the Mideast peace initiatives, the "Abraham Accords," and support for Israel.

• **Stopping the Keystone Pipeline** eliminates our recently established energy independence and causes us to be energy dependent on nations not friendly to us, while eliminating valuable US jobs. We must open the Keystone Pipeline and regain our energy independence for national security and economic reasons.

• **Using the U.S. military** as political pawns with thousands of troops deployed around the U.S. Capitol Building, patrolling fences guarding against a non-existent threat, along with forcing Politically Correct policies like the divisive critical race theory into the military at the expense of the War Fighting Mission, seriously degrades readiness to fight and win our Nation's wars, creating a major national security issue. We must support our Military and Vets; focus on war fighting, eliminate the corrosive infusion of Political Correctness into our military which damages morale and war fighting cohesion.

• **The "Rule of Law"** is fundamental to our Republic and security. Anarchy as seen in certain cities cannot be tolerated. We must support our law enforcement personnel and insist that DAs, our courts, and the DOJ enforce the law equally, fairly, and consistently toward all.

• **The mental and physical condition of the Commander in Chief** cannot be ignored. He must be able to quickly make accurate national security decisions involving life and limb anywhere, day or night. Recent

Democrat leadership's inquiries about nuclear code procedures sends a dangerous national security signal to nuclear armed adversaries, raising the question about who is in charge. We must always have an unquestionable chain of command. Under a **Democrat Congress** and the Current Administration, our Country has taken a hard left turn toward Socialism and a Marxist form of tyrannical government which must be countered now by electing congressional and presidential candidates who will always act to defend our Constitutional Republic. The survival of our Nation and its cherished freedoms, liberty, and historic values are at stake.

We urge all citizens to get involved now at the local, state and/or national level to elect political representatives who will act to Save America, our Constitutional Republic, and hold those currently in office accountable.

The "will of the people" must be heard and followed.

took to make sure that Donald Trump would not be elected president back in 2016. These FBI lovers also sneered that Trump supporters were smelly Walmart shoppers. This is the environment of today's FBI and those agencies involved in protecting the nation and its citizenry.

These false protectors have not hesitated to use their authority to create and carry out lawfare on any individual, group, or business or social platform they view not as a threat to the nation but to themselves and their slobbering thirst for raw power. To en-

sure their power, they have implemented lawfare to advance an agenda of socialism and Marxism where they are the elite rulers and the rest of us will have settle on being the Deplorables. DOJ Director Merrick Garland is no exception when it comes to the integrity of these agencies turning into dry rot.

One has to wonder if the 'October Surprise' is as extreme as having President Trump arrested based on Judge Tanya Chutkan's decision to release sealed documents regarding January 6 charges. Chutkan is a Democrat who, in our observation, has

shown more allegiance to the Democratic Party than the Rule of Law and the U.S. Constitution. She has maneuvered her way around the U.S. Supreme Court ruling with the help of the infamous and illegally appointed special counsel Jack Smith to release these sealed documents on October 10, just weeks before the November 5th Election. If that means pulling a banana republic tactic of jailing Trump, we do not put it above the Democratic Party, Biden, Harris, and their henchman Merrick Garland to carry it out with a 'nod, nod wink, wink' to Chutkan. After all,

the Democrats have already tried throwing President Trump off the ballot in several states, strip him of his property, gag him, and fine him perpetually.

Under Garland, President Trump's home, Mar-a-lago, was raided for no legitimate reason. Garland gave the order. It is obvious that Garland is so heavily politicized that he would use lawfare to take out a Democratic Party and/or a Biden-Harris opponent to secure the Democratic Party a presidency to advance their socialist agenda in a sub rosa coup.

Garland's ego is so colossal that

it belies the little-itty-bitty skinny wimpy nervous-voiced man who heads the Department of Justice (DOJ) who crawls from under a rock to give a press conference now and then where he dares not answer any reporter's question. "In Garland We Trust "could easily replace the word "God" in the Biden-Harris administration. Garland will go down in history as the worse and most corrupt attorney general in American History. For example, nearly 325,000 unaccompanied children among illegal migrants are missing under his watch; yet, he takes the time to go after Moms

for Liberty, a group of American parents, as if they have no natural rights to protect their children from crazy pedagogic 'cruel and unusual punishment' from the teachers' unions. Of course, no one dares to question him about anything at any time. Those who do are more than likely to be put on his blacklist to have their homes or offices raided or be sent to prison. His agency's latest claim is that Iranians are plotting to kill Trump. One has to wonder about connections the Biden-Harris administration already has with Iran, because at

Regarding Black Lives Matter...From our Archives in March 2023

Los Angeles, CA – In a newly released statement, Black Lives Matter Grassroots announces the upcoming court hearing against Black Lives Matter Global Network Foundation (GNF) and “Shalomyah” Bowers, a highly-paid consultant, who took nearly \$2.2 million in consulting fees in 2020 alone. In March 2022, Bowers declared his intent to hold on to Black Lives Matter’s resources and communications platforms, continuing to pay himself millions of dollars in consulting fees. After nearly 6 months of attempting to negotiate, Black Lives Matter Grassroots, the on-the-ground movement of chapters, organizers, and families impacted by police and white-supremacist violence, filed a lawsuit.

Cong. Thompson and the Democratic Party have put in place mechanisms to supply illegals driver’s licenses, Medicaid and Medicare benefits, Social Security benefits, free rent, food stamps, mortgage help, and other benefits set aside for American citizens. They will even qualify to get enormous downpayments to purchase homes. All this activity is to “buy” their fake votes and loyalty to the rogue Democratic Party while displacing Black, White and Brown Ameri-

can citizens. This has and is already happening in Sanctuary States and cities such as New York, Los Angeles, and Chicago. Heed our words. Millions and millions of dollars are being spent to bring in illegal migrants based on Soros’ Open Society tyranny. Check with Chicago Red, an organization Blacks founded to support President Donald Trump not because they are in love with Trump one way or another, but because Chicago’s Black self-avowed socialist Mayor Brandon Johnson, a member of the Democratic Party, has brought in thousands of illegal migrants (emphasis on ‘non-citizen,’ specifically ‘Black’ and ‘Brown’ non-citizens) to push Black Chicagoans out along with White Chicagoans. As his bonus, military veterans are being pushed out as well. Check this out. Research. Many of you have Chicago relatives or friends. Call them. Do not rely on legacy media. Get your information and

confirmations from those who actually live in Chicago urban areas. Furthermore, get your information from Hispanics, Cubans, and other refugees who went through the channels to become American Citizens. Let them tell you upfront how they woke up and found out their freedom, their land, their homes, their jobs, their dreams had been yanked from them and how they had to literally run for their lives.

It is for these reasons, we have endorsed Ron Eller over Cong. Bennie Thompson who has betrayed his own people, his fellow Mississippians, his fellow Mid-Southerners, and his fellow Americans. For 30 years, Mississippi has been one of our sister states that we have an obligation to report what we have researched and have seen what is happening in our other southern sister states. We take that obligation seriously, and we take our vow to replace Cong. Thompson with a candidate of common

sense seriously. If we are wrong, then Mississippians will at least have the opportunity to vote him out, but maybe not if Mississippi becomes a Sanctuary State.

Mississippi is now embattled in redistricting controversy. It is not that we are arguing that redistricting is a bad thing if it accommodates its citizenry. But there may very well be a bigger and

This war to fight for our nation is not about anything as fickle as skin color because we all bleed red. It is about keeping America a land of opportunity and freedom! Just as the Black historic Buffalo Soldier, Tuskegee Airmen, WWII Black soldiers, and other soldiers fought for their home called America. In spite of being an imperfect union, we must again FIGHT TOGETHER as Americans. Because, at the end of the day, America is still HOME! Soros’ Open Society releases 2020 plan to use Blacks to push ‘Equity’ Socialism ...from page 2

The largest share of this support—\$150 million—will be through a set of five-year grants to Black-led justice organizations that helped to create and now sustain the momentum towards racial equality. Open Society’s response reflects our conviction that real progress requires sustained support over many years and letting leaders accountable to impacted communities shape the path forward.

corner of this country—gives hope to us all.”

“The success of this movement, the largest in U.S. history, will be measured over years, not weeks, and we cannot say that Black lives matter and not make a multi-year commitment to a strategy set by and centering Black leaders and organizations who changed America’s sense of what is possible,” said Tom Perriello, executive director of Open Society-U.S.

Recipients of this set of investments range from emerging groups to more established forces for civil rights. Among them: Black Voters Matter, Circle for Justice Innovations, Repairers of the Breach and the Equal Justice Initiative. Some are fighting for an end to policing as we know it, and others are fighting for access to the ballot. Collectively, these organizations make up a vital ecosystem of justice, one that’s poised to harness the extraordinary energy of today and ensure it results in meaningful reform.

“This is the time for urgent and bold action to address racial injustice in America,” said Alex Soros, deputy chair of the Open Society Foundations. “These investments will empower proven

leaders in the Black community to reimagine policing, end mass incarceration, and eliminate the barriers to opportunity that have been the source of inequity for too long.”

Open Society will also make a series of substantial investments, totaling \$70 million, in more immediate efforts to advance racial justice. These initiatives will include the following:

- Investments in a set of cities as they reimagine public safety, moving beyond the culture of criminalization and incarceration, and aiming to create safe, healthy, and racially just communities. We will fund bold and promising strategies to these ends. Through financial support, advocacy, and technical assistance, we will partner with local governments and local organizations—seeking, among other things, to strengthen local expertise in understanding and navigating municipal budgets.

- A further set of investments will go toward nurturing the civic engagement of young people, many of whom have engaged in activism for the first time in response to this extraordinary political moment in the history of our country. With summer intern-

ships cancelled in a job market ravaged by COVID-19, and high schools and colleges uncertain whether they’ll be able to welcome students back to campus in the fall, Open Society’s funding will create opportunities for students to enroll in internships and fellowships that focus on racial justice, democracy, organizing, and mentorship.

- Support for ongoing efforts to fight voter suppression and disinformation, and ensure safe and secure elections, in the midst of the pandemic.

In the coming weeks, Open Society will be providing further information about these and other areas of investment, including support to emergent efforts to establish truth commissions and other tools to promote racial healing—as well as funding to improve conditions particularly for Black workers and other workers of color—as labor, racial, and social justice organizations prepare for a national “Strike for Black Lives” later this month.

“Sustaining this extraordinary momentum toward centering justice for Black lives is fundamental to getting our democracy on track,” said Gaspard. “We need

to combine long-term commitments to this movement with near-term opportunities, to ensure that the millions who have stepped up to take action can see enough results to stay engaged.”

The Open Society Foundations has been working to advance racial justice in the United States for more than two decades. Founder and Chair George Soros began his philanthropic work in the United States in the 1990s, by challenging drug laws that unfairly target African Americans. Open Society launched its Racial Justice Initiative in 2003 and has steadily grown support for those addressing systemic inequality experienced by historically marginalized communities of color.

In subsequent years, the Foundations helped launch the Campaign for Black Male Achievement, investing nearly \$20 million over several years, and gave \$50 million to help the ACLU’s campaign to reduce mass incarceration. Last year, Open Society-U.S. invested \$25 million in multiyear grants to state organizations led by, and accountable to, people of color, as well as \$15 million to the NAACP Legal Defense and Educational Fund.

date takes effect.

Then there are the green mandates putting people out of work. One recently enacted law has the state on track to ban gas-powered lawn equipment, which will be a significant cost burden on lawn care and landscaping businesses that are today a path to prosperity for many Latino entrepreneurs. Another regulation adopted by Southern California’s air quality regulators would ban commercial gas ovens in kitchens by 2036, which are used to provide baked goods for restaurants and stores. This will cost about 3,200 jobs once fully implemented.

Some may argue that these wild policies won’t catch on nationally. Think again. The recent controversy over federal bureaucrats reportedly considering a ban on gas stoves, emulating an idea that first caught steam in Sacramento, shows the California Way is spreading nationwide. With Californian Harris now topping the presidential ticket, the California Way previews a future Harris administration’s policy agenda, on green policy and so much more.

ing the size and scope of government to benefit select corporations”.

“For decades we’ve been shut out of policy making in Washington, D.C., because of the likes of the so-called National Pork Producers Council, National Cattlemen’s Beef Association, American Farm Bureau, and others who have hijacked and coopted the voices of the American family farmers they have falsely claimed to represent,” said Taylor Haynes, President of the Organization for Competitive Markets and Founder of the Wyoming Independent Cattlemen’s Association. “Our new Limited Government Agriculture Scorecard reflects what farmers on the ground actually think about the harmful policies Congress continues to impose on producers that ultimately benefit countries like China and Brazil in their

quest to conquer and control American food production.”

“The EATS Act is yet another example of corporate agribusiness undermining independent farmers who have worked tirelessly to build competitive, quality-driven markets,” said Marty Irby, President & CEO at Competitive Markets Action and Board Secretary at the Organization for Competitive Markets. “If we don’t act now, we will see even more family farms driven out of business by cronyistic policies designed to benefit foreign-controlled entities like Smithfield. We’re proud to launch our new scorecard that will serve as a vital tool to hold federal lawmakers in the Swamp accountable for their actions, and protect our American family farmers from predatory practices, the Global Meat Cartel, foreign multinational conglomerates and

special interest groups like the so-called National Cattlemen’s Beef Association, that have hijacked and coopted the voices of the very producers they are putting out of business.”

“The American family farmer can’t afford another Farm Bill like the one Glenn Thompson passed through the House Committee in May, and we are not going to take it anymore,” said Mike Schultz, Vice-President of the Organization for Competitive Markets and Founder of the Kansas Cattlemen’s Association. “Corporate capture of our own USDA, FDA, and other agencies has enabled foreign multinational conglomerates like Smithfield and JBS to wipe out farmers all across America and we’re now one catastrophe away from seeing a run on the food banks in our nation. Until we get open and competitive competition with full market transparency, we will see further concentration and con-

solidation.”

“It’s time for Congress to pay attention and listen the voices of the American farmers who put food on the table and stop listening to those who continue to use USDA checkoff funds to illegally lobby Congress and the Administration in support of policies that give the farm away to China and other foreign enemies who seek to destroy our country,” said Jonathan Buttram, President of the Alabama Contract Poultry Growers Association and Treasurer at the Organization for Competitive Markets. “The swamp rats in D.C. have created a serious national security threat in American food production and it’s high-time the voters in their states and districts were informed.”

Additionally, the scorecard evaluates support for the OFF Act, a bipartisan effort led by U.S. Reps. Nancy Mace (R-SC) and Dina Titus (D-NV), along with U.S. Sens. Mike

Lee (R-UT), Rand Paul (R-KY), Cory Booker (D-NJ), and Elizabeth Warren (D-MA). OFF seeks to bring accountability to the USDA’s Commodity Checkoff Programs, which have been misused by groups like the National Cattlemen’s Beef Association (NCBA) and the National Pork Producers Council (NPPC) to push corporate-friendly policies at the expense of independent producers. These policies include backing the EATS Act and undermining crucial initiatives like Country-of-Origin Labeling.

Sadly, the House Farm Bill, led by Chairman Thompson (R-PA), includes a version of the harmful EATS Act and excludes the essential OFF Act. It also exacerbates the “actively engaged in farming” loophole, further entrenching cronyism in agricultural policy. As a result, House Agriculture Committee members who supported this Farm Bill will face penalties in the scorecard

The Mid-South Tribune Endorses U.S. Senator Marsha Blackburn —Again!

By Ms. Arelya J. Mitchell, Publisher/Editor-in-Chief The Mid-South Tribune

It may be cliché to say one’s work speaks for itself, but when it is the truth then it is a testament to that person’s character. U.S. Sen. Marsha Blackburn is a woman of character. She is relentless, common-sensical, and dedicated when it comes to putting her constituents first. This is why we continue our endorsement of Sen. Blackburn as we move forward to the November 5th Election. We urge Tennessee citizens to vote early, beginning October 16-31. And, if you cannot, please do so on Tuesday, November 5th. America is at a critical crossroads at this juncture in the 21st Century: Either we will be a nation under our present Constitution, the Bill of Rights, and our culture of freedom OR we shall devolve into socialism and Marxism and suffer the same consequences as any other Third World nation—where you have two distinct classes: the Very Rich and the Very Poor. No middle class.

The Democratic Party has put forth its DEI (Diversity, Equity, and Inclusion) candidate, State Rep. Gloria Johnson who gained

a flavor-of-the-month fame as a member of the Tennessee Three which used the tragic Covenant school shooting to push gun violence as a tactic to take away your Second Amendment rights. We know there is gun violence

and then there is the politics of gun violence. The Tennessee Three chose the politics of gun violence. This trio was more interested in protecting the Covenant School child-killer who fitted their DEI profile, seeing

that she was a transgender. (Of course, we know not all transgenders are out there committing crimes.) The Covenant School victims did not fit this agenda (seeing the school was Christian and the students mostly White) and; therefore, were expendable when it came to the Democratic Party’s goal to make the Second Amendment null and void.

As a historical note: Sen. Blackburn already has the distinction of being Tennessee’s first female U.S. Senator. She got there by being a woman who is qualified and who is willing to do the work to serve her constituents. We have followed Blackburn’s career from the time she was a Tennessee state senator to U.S. congressman to now U.S. senator. From our observation, she has proven that she is no lightweight.

We pause here to emphasize that the “E” in DEI stands for “equity,” a Marxist term. Con-

trary to how humane it sounds, it is anything but. It kills the human spirit which thrives on freedom—not slavery. Equity is not the same as equality and equal opportunity. This is a tool to confiscate both property and wealth to redistribute them to achieve “equity.” That is, for everyone to be the same; however, ultimately it will be the elites of the Party (i.e. Democratic Party) who will decide who gets what or who owns what. We urge citizens to look up the term “equity” in Webster’s Dictionary as defined under Marxism or get an encyclopedia. Please, research these subjects and terms. Presently, they are being utilized as Democratic Party propaganda to advance socialism and Marxism, and any person who does not go along with them is viewed as “an existential threat to democracy.”

Lightweight Gloria Johnson has yet to denounce men playing in women’s sports. Sen. Blackburn has strongly denounced the Democratic Party’s move to destroy Title IX which was passed specifically to create a legal pathway for women’s sports.

Sen. Blackburn declared October 10th as “American Girls in Sports Day” and released the fol-

this juncture, it seems that the Biden-Harris administration is accommodating the Iranians more than it is our ally, Israel. The Biden family has allegedly gotten some \$27 million from the Chinese, and jewelry from Russia with love. Iran went broke under President Trump’s sanctions, but their wealth was restored at the speed of light under the Biden-Harris administration. Why? So, we don’t throw out the possibility that the Biden-Harris administration needed a favor from Iran, seeing that both regimes share a deep hatred for Trump. Biden and Harris’ action in providing Iran with billions to build a nuclear bomb makes one wonder how large is the kickback piggy bank

So, Garland just might be inclined to accommodate his bosses Biden and Harris and the Democratic Party to make sure Trump does not win by any means necessary. After all, the DOJ’s legions of Soros-backed U.S. attorneys, district attorneys, judges, law firms et.al are trying to strip Trump of his fortune and jail him for life and destroy his children and anybody connected to him in the process as justified collateral.

in oil revenues, and if it is worth the risk of WWII?

So, Garland just might be inclined to accommodate his bosses Biden and Harris and the Democratic Party to make sure Trump does not win by any means necessary. After all, the DOJ’s legions of Soros-backed U.S. attorneys, district attorneys, judges, law firms et.al are trying to strip Trump of his fortune and jail him for life and destroy his children and anybody connected to him in the process as justified collateral. They have such fear of Trump thwarting their ‘coup’ to take over the country that they no longer hesitate to call out for outlawing the First and Second Amendments. In old film footage, Kamala Harris herself was caught telling a constituent that she and her cohorts were authorized to come into the woman’s house to

search for guns to make sure she was following the law. Talk about bold bull crap!

Of course, Garland does not epitomize the absurdity of a justice system as found in Kafka’s “The Trial” but rather the monster in Kafka’s “The Metamorphosis.” In short, Garland is a bastard who has bastardized the law and the spirit of the law because he has put himself “above the law.” After all, “In Garland We Trust.” This brings us to a group which finds comfort in having Merrick Garland in the chambers of the Attorney General. This group is becoming so powerful that it operates like Picasso Under the Color of the Law. This is The 65 Project which the liberal media mob will not cover because it is so busily attaching Project 2025 to the Trump campaign, when in fact, the media knows that Project 2025 has nothing to do with the Republican presidential candidate’s campaign or the Republican Party, or Trump himself. But still the media keeps going with this propaganda because it fits their agenda to destroy Trump and all things connected to Trump. Very much like The 65 Project.

The Democratic Party and their media mob are relentlessly using Project 2025 as a black-eyed distraction to protect The 65 Project and DEI (Diversity, Equity, and Inclusion). The latter is not even about equality, because “Equity” in this context is a Marxist term and tool; it is not even about the old “separate but equal” clause because DEI seeks out their version of a downtrodden minority (Blacks in America in this case) to serve as a model and a measurement to dummy down everyone else to achieve ‘equity’—that is to make everyone equal in having nothing, owning nothing, and being nothing. Yes, they can go out and get a Black dumb person and paint him as a victim of society to drive home their point of “separate but unequal” (aka DEI). Mind you, DEI is not based on “equal opportunity” but on subjugation and the victimhood of poverty (except these elites get to keep their millions, mansions, private jets, and eat

This nouveau KKK group called The Project 65 has already filed numerous ethics complaints to disbar any judge or attorney it does not like or, as stated earlier, any attorney who takes a case involving President Trump directly or indirectly or any judge who rules in Trump’s favor.

caviar—think John Kerry). It is a cold thing to say, but the Democratic Party knows that Blacks are the only minority which they can take back into segregation under the guise of DEI and use Blacks as fertilizer to grow socialism and Marxism. (Those Blacks who get it will not fall for this; thus, why they are leaving in droves the Democrat Plantation. Black men are especially getting it that the Democratic Party is systemically removing them and replacing them with Black women as it did to preserve the institution of slavery and later segregation utilizing the theory of Willie Lynch.)

The Democrats’ socialist-Marxist candidate Kamala Harris (whom Trump appropriately calls ‘Comrade’ Kamala) has been populating her speeches with the word ‘equity’ because it sounds like such a pretty little innocent word to fool Black Americans into thinking it means equal opportunity. White liberal Democrats suffering from the heart-break of white guilt need “equity” for medicinal purposes. Harris has tried unsuccessfully to rip off U.S. Sen. Tim Scott’s “Opportunity Zones” economic model for Black capitalism which Trump endorsed along with his own Platinum Plan to elevate capitalism inside the Black community which would elevate both the Black middle class and America’s middle class. (We can expound on this later). We, too, have praised both Scott’s Opportunity Zones and Trump’s Platinum Plan.

But let us get back to the issue of lawfare by bringing up The 65 Project as seemingly a de facto legal arm of the Democratic Party. In fact, one of its founders is the former U.S. Sen. Tom Das-

chel, a bona-fide Democrat who served as Majority Leader. Also, heading The Project 65 are Stuart Gerson who was appointed acting attorney general in the Clinton administration and as President George H.W. Bush’s assistant attorney general for the Civil Rights Division of the DOJ; Paul Rosenzweig, founder of the Red Brand Consulting Company, (a homeland security company), who has served as deputy assistant secretary for policy in the Department of Homeland Security (which may explain why the Democratic Party is pro-illegal immigration); retired and former State Supreme Court Chief Justice Christine Durham, and other Democratic Party members who got on board with The Project 65 just as some Republican Party members who got on board Project 2025—to each his own—yet, it is The Project 65 which ‘trumps’ Project 2025 in being dangerous.

What makes The Project 65 dangerous is that it utilizes lawfare to strip citizens of their choice of an attorney which by default strips them of their right to one. The Project 65 has been absolved of any repercussions, bad press coverage, or anything negative.

Project 2025 is a proposal; The 65 Project legalizes its goals through lawfare. You can tear up the 2025 project and shred it to pieces and make confetti if you like. But The 65 Project can throw you behind bars, ruin your livelihood, and probably get away with shooting you or having you shot so you never ever will be an “existential threat to democracy.”

The 65 Project formalized in its mission statement: “The 65 Project will serve to protect democracy from the threat posed through abuse of the legal system by holding accountable the lawyers who bring fraudulent lawsuits seeking to overthrow legitimate election results or who otherwise violate their professional responsibilities to undermine our democracy.” This is rich, seeing that The 65 Project has already violated First Amendment rights yes—and even the 1964 Civil Rights Bill.

“Due Process” is a four-letter word to this group which uses the term “democracy” like any other power-wielding dictator until he wins then blocks all free elections forever.

This nouveau KKK group called The Project 65 has already filed numerous ethics complaints to disbar any judge or attorney it does not like or, as stated earlier, any attorney who takes a case involving President Trump directly or indirectly or any judge who rules in Trump’s favor. Already, it has gone after the reputation and livelihoods of about 100 attorneys. Among them, the distinguished Attorney **Alan Dershowitz** who as a staunch Democrat dared to take a case defending President Trump. As a Jewish American he recently left the Democratic Party because of that party’s strong antisemitism which also harkens back to the Jim Crow era when the Democratic Party went after both Jews and Blacks. Others whom they have filed ethics charges against are Mississippi Secretary of State **Lynn Fitch**, former Trump attorneys **Jenna Ellis** and **Rudy Guiliano** (known as America’s Mayor), Alabama Attorney General **Steven Marshall**, **Daniel Hartman**, **Kurt B. Olsen**, **Andrew D. Parker**, **Jesse R. Binnall**—the list goes on. These are not household names but this tells regular citizens that The 65 Project is coming after you to preempt your freedom to choose and contract with any attorney you want if they don’t like his or her politics or whom he or she has as a client. There will be no attorney-client privilege as this privilege was already blown up during the Trump trials when a Democratic judge forced one of Trump’s attorneys to reveal publicly what was discussed between him and Trump. This is how extreme and dangerous The 65 Project is. Yet, you can bet your bottom dollar that this elite mob will likely have the protection of Merrick Garland and his corrupt biased DOJ operating under the auspices of the Democratic Party and Under the Color of the Law. After all, Garland has done nil to the would-be as-

sassin who went after U.S. Supreme Court Justice Kavanaugh. And the media covered this assassination attempt of a Supreme Court Justice as if it were a routine burglary, much like it is doing with the assassination attempts on Pres. Trump’s life. Of course, their darling Judge Chutkan will have no Project 65 ethics complaints filed against her, but perhaps the Trump camp, RNC, and those attorneys they screwed over should consider doing so, and in, fact, file a class action lawsuit against them. That will be a first—lawyers filing a class action lawsuit against other lawyers. But it needs to be done for ‘ethical’ reasons and to prevent The Project 65’s “existential threat to democracy” Under the Color of the Law.

Watch out, folks, The Project 65 is replicating itself in other states to hamstring the Rule of Law Under the Color of the Law. In our observation, it is also setting up itself to be an elite pool to supply judges, district attorneys, sheriffs, law clerks to the Supreme Court and State Supreme Courts, and lower courts with what might as well be The Project 65 Seal of Approval.

As prima facie evidence, The Project 65 has formally said in its mission statement: “We are working closely with law professors and professional responsibility practitioners to develop model rules, and we will push state bar associations to adopt them.”

The Project 65 is Marxist in its “equity” to change America. Need we expound more?

Crimes by The Project 65 only add to our ongoing endorsement of **President Trump** and his VP nominee **J.D. Vance**, and for the Republican Party to win this 21st Century Civil War.

2024 GOP PLATFORM MAKE AMERICA GREAT AGAIN!

Dedication: To the Forgotten Men and Women of America

Our Nation’s History is filled with the stories of brave men and women who gave everything they had to build America into the Greatest Nation in the History of the World. Generations of American Patriots have summoned the American Spirit of Strength, Determination, and Love of Country to overcome seemingly insurmountable challenges. The American People have proven time and again that we can overcome any obstacle and any force pitted against us.

In the early days of our Republic, the Founding Generation defeated what was then the most powerful Empire the World had ever seen. In the 20th Century, America vanquished Nazism and Fascism, and then triumphed over Soviet Communism after forty-four years of the Cold War.

But now we are a Nation in SERIOUS DECLINE. Our future, our identity, and our very way of life are under threat like never before. Today we must once again call upon the same American Spirit that led us to prevail through every challenge of the past if we are going to lead our Nation to a brighter future.

For decades, our politicians sold our jobs and livelihoods to the highest bidders overseas with unfair Trade Deals and a blind faith in the siren song of globalism. They insulated themselves from criticism and the consequences of their own bad actions, allowing our Borders to be overrun, our cities to be overtaken by crime, our System of Justice to be weaponized, and our young

But now we are a Nation in SERIOUS DECLINE. Our future, our identity, and our very way of life are under threat like never before. Today we must once again call upon the same American Spirit that led us to prevail through every challenge of the past if we are going to lead our Nation to a brighter future.

people to develop a sense of hopelessness and despair.

They rejected our History and our Values. Quite simply, they did everything in their power to destroy our Country.

In 2016, President Donald J. Trump was elected as an unapologetic Champion of the American People. He reignited the American Spirit and called on us to renew our National Pride. His Policies spurred Historic Economic Growth, Job Creation, and a Resurgence of American Manufacturing. President Trump and the Republican Party led America out of the pessimism induced by decades of failed leadership, showing us that the American People want Greatness for our Country again.

Yet after nearly four years of the Biden administration, America is now rocked by Raging Inflation, Open Borders, Rampant Crime, Attacks on our Children, and Global Conflict, Chaos, and Instability.

Like the Heroes who built and defended this Nation before us, we will never give up. We will restore our Nation of, by, and for the People. We will Make America Great Again. We will be a Nation based on Truth, Justice, and Common Sense.

Common Sense tells us clearly, in President Trump’s words, that “If we don’t have a Border, we don’t have a Country.” Restoring sensible Border Security and Immigration Policy requires many steps, all of which would have been and indeed were taken for granted by prior Generations as obviously necessary and good. We must secure our Southern Border by completing the Border Wall that President Trump started. Hundreds of miles have already been built and work magnificently. The remaining Wall construction can be completed quickly, effectively, and inexpensively. We must also vigilantly check those who enter our Country by other routes and ensure that no one can enter our Country who does not have the Legal Right to do so, and we must deport the millions of illegal Migrants who Joe Biden has deliberately encouraged to invade our Country. We will start by prioritizing the most dangerous criminals and working with local Police. We must not allow Biden’s Migrant Invasion to alter our Country. It must not stand. Under the Trump Administration and a Republican Congress, it will be defeated immediately.

Common Sense tells us clearly that if we don’t have Domestic Manufacturing with low Inflation, not only will our Economy—and even our Military Equipment and Supplies—be at the mercy of Foreign Nations, but our Towns, Communities, and People cannot thrive. The Republican Party must return to its roots as the Party of Industry, Manufacturing, Infrastructure, and Workers. President Trump’s economic policy to end Inflation and return Manufacturing Jobs is not only what the American Economy and American Workers need right now, it is also what they want right now.

Common Sense tells us clearly that we must unleash American Energy if we want to destroy Inflation and rapidly bring down prices, build the Greatest Economy in History, revive our Defense Industrial Base, fuel Emerging Industries, and establish the United States as the Manufacturing Superpower of the World. We will DRILL, BABY, DRILL and we will become Energy Independent, and even Dominant again. The United States has more liquid gold under our feet than any other Nation, and it’s not even close. The Republican Party will harness that potential to power our future.

Common Sense tells us clearly that if we don’t have a Strong Military, we won’t be able to defend our interests and we will be at the mercy of Hostile Nations. The Policy of the Republican Party must be to ensure that America’s Military is the strongest and best-equipped in the World—and that our Government uses that great strength sparingly, and only in clear instances where our National Interests are threatened.

Common Sense tells us clearly that the Republican Party must stand for Equal Treatment for All. Likewise, the Republican Party must ensure the equal application of law to all regardless of political affiliation or personal beliefs. Recent Democrat-led political persecutions threaten to destroy 250 years of American Principle and Practice and must be stopped.

America needs determined Republican Leadership at every level of Government to address the core threats to our very survival: Our disastrously Open Border, our weakened Economy, crippling restrictions on American Energy Production, our depleted Military, attacks on the American System of Justice, and much more.

To make clear our commitment, we offer to the American people the 2024 GOP Platform to Make America Great Again! It is a forward-looking Agenda that begins with the following twenty promises that we will accomplish very quickly when we win the White House and Republican Majorities in the House and Senate.

1. SEAL THE BORDER, AND STOP THE MIGRANT INVASION
2. CARRY OUT THE LARGEST DEPORTATION OPERATION IN AMERICAN HISTORY
3. END INFLATION, AND MAKE AMERICA AFFORDABLE AGAIN
4. MAKE AMERICA THE DOMINANT ENERGY PRODUCER IN THE WORLD, BY FAR!
5. STOP OUTSOURCING, AND TURN THE UNITED STATES INTO A MANUFACTURING SUPERPOWER
6. LARGE TAX CUTS FOR WORKERS, AND NO TAX ON TIPS!
7. DEFEND OUR CONSTITUTION, OUR BILL OF RIGHTS, AND OUR FUNDAMENTAL FREEDOMS, INCLUDING FREEDOM OF SPEECH, FREEDOM OF RELIGION, AND THE RIGHT TO KEEP AND BEAR ARMS
8. PREVENT WORLD WAR THREE, RESTORE PEACE IN EUROPE AND IN THE MIDDLE EAST, AND BUILD A GREAT IRON DOME MISSILE DEFENSE SHIELD OVER OUR ENTIRE COUNTRY -- ALL MADE IN AMERICA
9. END THE WEAPONIZATION OF GOVERNMENT AGAINST THE AMERICAN PEOPLE
10. STOP THE MIGRANT CRIME EPIDEMIC, DEMOLISH THE FOREIGN DRUG CARTELS, CRUSH GANG VIOLENCE, AND LOCK UP VIOLENT OFFENDERS
11. REBUILD OUR CITIES, INCLUDING WASHINGTON DC, MAKING THEM SAFE, CLEAN, AND BEAUTIFUL AGAIN.
12. STRENGTHEN AND MODERNIZE OUR MILITARY, MAKING IT, WITHOUT QUESTION, THE STRONGEST AND MOST POWERFUL IN THE WORLD
13. KEEP THE U.S. DOLLAR AS THE WORLD’S RESERVE CURRENCY
14. FIGHT FOR AND PROTECT SOCIAL SECURITY AND MEDICARE WITH NO CUTS, INCLUDING NO CHANGES TO THE RETIREMENT AGE
15. CANCEL THE ELECTRIC VEHICLE MANDATE AND CUT COSTLY AND BURDENSOME REGULATIONS
16. CUT FEDERAL FUNDING FOR ANY SCHOOL PUSHING CRITICAL RACE THEORY, RADICAL GENDER IDEOLOGY, AND OTHER INAPPROPRIATE RACIAL, SEXUAL, OR POLITICAL CONTENT ON OUR CHILDREN
17. KEEP MEN OUT OF WOMEN’S SPORTS
18. DEPORT PRO-HAMAS RADICALS AND MAKE OUR COLLEGE CAMPUSES SAFE AND PATRIOTIC AGAIN
19. SECURE OUR ELECTIONS, INCLUDING SAME DAY VOTING, VOTER IDENTIFICATION, PAPER BALLOTS, AND PROOF OF CITIZENSHIP
20. UNITE OUR COUNTRY BY BRINGING IT TO NEW AND RECORD LEVELS OF SUCCESS

When America is united, confident, and committed to our principles, it will never fail. Today and together, with Love for our Country, Faith in our People, and Trust in God’s Good Grace, we will Make America Great Again!
